

BOY SCOUTS OF AMERICA
MERIT BADGE SERIES

ELECTRONICS

"Enhancing our youths' competitive edge through merit badges"

BOY SCOUTS OF AMERICA®

Requirements

1. Describe the safety precautions you must exercise when using, building, altering, or repairing electronic devices.
2. Do the following:
 - a. Draw a simple schematic diagram. It must show resistors, capacitors, and transistors or integrated circuits. Use the correct symbols. Label all parts.
 - b. Tell the purpose of each part.
3. Do the following:
 - a. Show the right way to solder and desolder.
 - b. Show how to avoid heat damage to electronic components.
 - c. Tell about the function of a printed circuit board. Tell what precautions should be observed when soldering printed circuit boards.
4. Do the following:
 - (a) Discuss each of the following with your merit badge counselor:
 - (i) How to use electronics for a control purpose
 - (ii) The basic principles of digital techniques
 - (iii) How to use electronics for three different audio applications

- (b) Show how to change three decimal numbers into binary numbers and three binary numbers into decimal numbers.
- (c) Choose ONE of the following three projects. For your project, find or create a schematic diagram. To the best of your ability, explain to your counselor how the circuit you built operates.
- (i) A control device
 - (ii) A digital circuit
 - (iii) An audio circuit
5. Do the following:
- a. Show how to solve a simple problem involving current, voltage, and resistance using Ohm's law.
 - b. Tell about the need for and the use of test equipment in electronics. Name three types of test equipment. Tell how they operate.
 - c. Demonstrate to your counselor how to read the colored bands of a resistor to determine its resistance value.
6. Find out about three career opportunities in electronics that interest you. Discuss with and explain to your counselor what training and education are needed for each position.

Electronics Resources

Scouting Literature

Computers, Electricity, Inventing, Radio, and *Robotics* merit badge pamphlets

With your parent's permission, visit the Boy Scouts of America's official retail website, www.scoutshop.org, for a complete listing of all merit badge pamphlets and other helpful Scouting materials and supplies.

Books

- Bartholomew, Alan. *Electric Mischief: Battery-Powered Gadgets Kids Can Build*. Kids Can Press, 2002. Includes directions for an assortment of electronics.
- Bonnet, Bob, and Dan Keen. *Science Fair Projects With Electricity & Electronics*. Goodwill Publishing House, 2014. Includes nearly 50 projects on electricity and electronics.
- Bridgman, Roger. *Eyewitness: Electronics*. DK Publishing, 2000. Traces the history, discoveries, and devices of this fast-moving science.
- Ceceri, Kathy. *Robotics: Discover the Science and Technology of the Future with 20 Projects*. Nomad Press, 2012.
- Chirico, JoAnn. *Electronics*. VGM Career Horizons, 1996. This book explores career possibilities in electronics and electricity.
- Engelbert, Phillis. *Technology in Action: Science Applied to Everyday Life*. Gale, 1998. A general look at technology and technical applications of scientific knowledge, with a section on computers and electronics.
- Leon, George deLucenay. *Electronics Projects for Young Scientists*. Franklin Watts, 1991. Introduces the basic principles of electronics and includes project ideas such as a crystal radio, an intercom, and a pair of electronic dice.
- Maxfield, Clive "Max." *Bebop to the Boolean Boogie: An Unconventional Guide to Electronics*, 3rd. ed. Newnes, 2009. This book covers the basics of electronics clearly, simply, and in an entertaining style.
- Predko, Myke. *Digital Electronics Guidebook: With Projects!* McGraw-Hill, 2002. Introduces the nuts and bolts of digital electronics.

Rowh, Mark. *Opportunities in Electronics Careers*. McGraw-Hill, 2007. Check out the many electronics-related career opportunities featured in this book.

Slone, G. Randy. *TAB Electronics Guide to Understanding Electricity and Electronics*. 2nd ed. McGraw-Hill, 2000. A learn-as-you-go guide for readers of any electronics skill level.

Electronics Parts and Suppliers

In most places, **Radio Shack** stores can be the best source for electronics parts. However, most Radio Shacks have reduced their parts inventories, which means you might have to look elsewhere to find all the parts you

need for a project (or check out their website, www.radioshack.com). Electronics parts and kits also can be ordered over the internet or via mail or toll-free telephone from various suppliers.

Whenever you go online, be sure you have your parent's permission first.

Acknowledgments

The Boy Scouts of America thanks Mary Wiggins, director of educational initiatives for the Electronic Industries Foundation, for her assistance with this edition of the *Electronics* merit badge pamphlet. The EIF strives to create new ways to engage young people in the pursuit of science and technology, including electronics.

The Boy Scouts of America is grateful to the men and women serving on the National Merit Badge Subcommittee for the improvements made in updating this pamphlet.
