MERIT BADGE SERIES

FLY-FISHING

“Enhancing our youths’ competitive edge through merit badges”

BOY SCOUTS OF AMERICA"
Requirements

1. Do the following:
   a. Explain to your counselor the most likely hazards you may encounter while participating in fly-fishing activities and what you should do to anticipate, help prevent, mitigate, and respond to these hazards. Name and explain five safety practices you should always follow while fly-fishing.
   b. Discuss the prevention of and treatment for health concerns that could occur while fly-fishing, including cuts and scratches, puncture wounds, insect bites, hypothermia, dehydration, heat exhaustion, heatstroke, and sunburn.
   c. Explain how to remove a hook that has lodged in your arm.

2. Demonstrate how to match a fly rod, line, and leader to achieve a balanced system. Discuss several types of fly lines, and explain how and when each would be used. Review with your counselor how to care for this equipment.

3. Demonstrate how to tie proper knots to prepare a fly rod for fishing:
   a. Tie backing to the arbor of a fly reel spool using an arbor knot.
   b. Tie backing to the fly line using a nail knot.
   c. Attach a leader to the fly line using a nail knot or a loop-to-loop connection.
   d. Add a tippet to a leader using a surgeon’s knot or a loop-to-loop connection.
   e. Tie a fly onto the terminal end of the leader using an improved clinch knot.
4. Explain how and when each of the following types of flies is used: dry flies, wet flies, nymphs, streamers, bass bugs, poppers, and saltwater flies. Tell what each one imitates. Tie at least two types of the flies mentioned in this requirement.

5. Demonstrate the ability to cast a fly 30 feet consistently and accurately using both overhead and roll cast techniques.

6. Go to a suitable fishing location and observe what fish may be eating both above and beneath the water’s surface. Explain the importance of matching the hatch.

7. Do the following:
   a. Explain the importance of practicing Leave No Trace techniques. Discuss the positive effects of Leave No Trace on fly-fishing resources.
   b. Discuss the meaning and importance of catch and release. Describe how to properly release a fish safely to the water.

8. Obtain and review a copy of the regulations affecting game fishing where you live or where you plan to fish. Explain why they were adopted and what is accomplished by following them.

9. Discuss what good sportsmanlike behavior is and how it relates to anglers. Tell how the Outdoor Code of the Boy Scouts of America relates to a fishing enthusiast, including the aspects of littering, trespassing, courteous behavior, “catch and release,” and obeying fishing regulations.

10. Catch at least one fish using a fly rod and a fly. Identify it and quickly release it live back into the water. Discuss this experience with your counselor.

11. If regulations and health concerns permit, clean and cook a fish you have caught. If you are unable to catch a fish for eating, acquire a fish, clean the fish you acquired, and cook the fish you acquired. (It is not required that you eat the fish.)
