Commissioner Tools Status

March 1, 2017

Explorer Posts and Clubs

- Explorer Posts and Clubs are now available to enter assessments using the JTE criteria.
- Commissioners may be assigned to Posts and Clubs.
- Posts and Clubs have yet to be integrated into other my.Scouting Tools; although Explorer training has been available for several months from My Dashboard.

February Updates

- The 2017 commissioner reports were available February 1. The 2014 reports have been removed from the drop down list.
- Contacts are again displaying on the Commissioner Profile and on the Commissioner Administration dashboard.
- The ability to assign units to commissioners registered at the sub-district level was released in early February.
- The Youth Protection (Y01) training video was rewritten in HTML5 to run on a tablet. This is in preparation for incorporating it into the mobile app.

Reporting Issues

- We are still investigating the following reported incidents:
  - Unit Health Report – some roundtables are not appearing
  - Unassigned Units Report – some units are missing

Dashboard Contact Changes

- All 2016 In Progress contacts will be removed from the system.
- The dashboards will be modified so that only current year and prior year contacts will appear. This will improve performance as there will be fewer contacts to load. The 2015 historical contacts will still be available via reporting.

Roadmap Updates this Spring

- Online Registration Orientation for Wave 1 councils launching on April 3 has begun. On March 7th Livestream training will be conducted for registrars in the morning and council professionals in the afternoon. Please click here for the latest training materials posted.
- The development of the Android mobile app is in progress and targeted for release this spring.
- The platform for the training reports in Training Manager is being rewritten to download in a CSV format.

Support

For system-related issues including down time, please email the Member Care Contact Center at myscouting@scouting.org, or call 972-580-2489 and log an incident to ensure proper handling and tracking.

Thank you for your continued dedication to Scouting.
