“A Scout is helpful. You have had the opportunity through your adventures to learn about people who help others through their jobs or volunteer roles. We know that, in being helpful, we do things for others without expecting others to tell us “thank you.” But doesn’t it feel good when others do tell you “thank you”? The words “thank you” are two simple but very important words. I thank you for the service that you have given and that you will give. I also challenge each of you to tell people that you appreciate what they have done to help you. Thank you.”
