

Race Ready Or Not Scenarios

You keep your hands to yourself while other cars are racing	You lean on the track to watch your car really closely	You listen while the leader is giving directions
You talk loudly while the leader is explaining the rules	You watch the race and keep your body still	You jump up and down right by the track
You follow the same rules as everyone else	You wait until the race is completely over before moving	You play with your car on the track when no race is happening
You ignore the directions of the leader	You touch the track while the race is happening	After the race is over, you wait your turn to get your car
You cheer for your friends when it's their turn to race	You stand behind the line and watch your car race	You keep your car on the table until it's your turn to race
You watch the finish line to see when the race is over	You use your quiet voice so that everyone can hear the instructions of the leader	You get upset and refuse to race when it's your turn
