The programs of the BSA focus on developing leaders of character. We do this by presenting and reinforcing the values found in the Scout Oath and Scout Law. It is enormously important for our members to have a moral compass and a strong work ethic to go along with it.

To realize the potential of Scouting, it is critical that we take all possible steps to create and maintain a safe environment for all who participate. That involves understanding personal boundaries and knowing what appropriate behaviors are in Scouting. Research indicates one of the best deterrents against child abuse is an open and continuous conversation between parents and their children.
