Single Op, Single Scout Station --- AM Only

I prepared my grandson by explaining that most of the scouts would be on SSB for which I was not and results indicated that, but his enthusiasm soared when it occurred to him that many of the hams on the AM Sunday morning net that weekend had been scouts when younger, and requested that they relate their troop or pack numbers on their next turn on the net; amazingly 25-30 stations did just that! My grandson was really excited. (So was granddad.) He understands that this was not what was suggested by JOTA, but I thought his innovative approach worthy of mention and a JOTA patch. I am enclosing a picture of a future ham/cub scout,
