District TAY

The purpose of this tool is to allow councils to enter and maintain data necessary for the District Journey to Excellence Dashboard. While the dashboard receives most of its data from the BSA system, this tool allows councils to maintain TAY to match the current structure of the districts.

Currently, the following positions will have access to the District TAY Tool:

- Scout executive
- Assistant Scout executive
- Director of field service
- Director of support services
- Field director
- Office staff (Code 54)

If someone other than above needs access, go to the [Organization Security Manager](#) tool to assign access.

IMPORTANT - During the rechartering process, unit roster data may not reflect updated information until councils post and update unit's rechartering information in ScoutNET.

To navigate up the organizational structure select the Home or Back buttons in the upper left of the screen.

To select a different tool and perform other functions, select District Total Available Youth in the top left corner to display the menu list.

Should a council merge, split, or realign districts, it may be necessary to update the data in the District Total Available Youth tool. This will not happen automatically, but an authorized user may go back and change data for any current district. This is desirable if one wants to produce an accurate JTE District Dashboard for a past month. In order to determine growth in market share, it may be necessary to change the TAY for the prior year.

For questions or concerns regarding the District Total Available Youth tool, please contact the Member Care Contact Center at: myscouting@scouting.org.
