

## Personal Health and the Annual Health and Medical Record

Find the current Annual Health and Medical Record by using this QR code or by visiting <http://www.scouting.org/HealthandSafety/ahmr.aspx>.

The Scouting adventure, camping trips, high-adventure excursions, and having fun are important to everyone in Scouting—and so are your safety and well-being. Completing the Annual Health and Medical Record is the first step in making sure you have a great Scouting experience. **So what do you need?**

**All Scouting Events.** All participants in all Scouting activities complete Part A and Part B. Give the completed forms to your unit leader. This applies to all activities, day camps, local tours, and weekend camping trips less than 72 hours. Update at least annually.

**Part A** is an informed consent, release agreement, and authorization that needs to be signed by every participant (or a parent and/or legal guardian for all youth under 18).

**Part B** is general information and a health history.

**Going to Camp?** A pre-participation physical is needed for resident, tour, or trek camps or for a Scouting event of more than 72 hours, such as Wood Badge and NYLT. The exam needs to be completed by a certified and licensed physician (MD, DO), nurse practitioner, or physician assistant. If your camp has provided you with any supplemental risk information, or if your plans include attending one of the four national high-adventure bases, share the venue's risk advisory with your medical provider when you are having your physical exam.

**Part C** is your pre-participation physical certification.

**Planning a High-Adventure Trip?** Each of the four national high-adventure bases has provided a supplemental risk advisory that explains in greater detail some of the risks inherent in that program. All high-adventure participants **must** read and share this information with their medical providers during their pre-participation physicals. Additional information regarding high-adventure activities may be obtained directly from the venue or your local council.

**Prescription Medication.** Taking prescription medication is the responsibility of the individual taking the medication and/or that individual's parent or guardian. A leader, after obtaining all the necessary information, can agree to accept the responsibility of making sure a youth takes the necessary medication at the appropriate time, but the BSA does not mandate or necessarily encourage the leader to do so. Standards and policies regarding administration of medication may be in place at BSA camps. If state laws are more limiting than camp policies, they must be followed. The AHMR also allows for a parent or guardian to authorize the administration of nonprescription medication to a youth by a camp health officer or unit leader, including any noted exceptions.

**Risk Factors.** Scouting activities can be physically and mentally demanding. Listed below are some of the risk factors that have been known to become issues during outdoor adventures.

- Excessive body weight (obesity)
- Cardiac or cardiovascular disease
- Hypertension (high blood pressure)
- Diabetes mellitus
- Seizures
- Asthma
- Sleep apnea
- Allergies or anaphylaxis
- Musculoskeletal injuries
- Psychological and emotional difficulties

More in-depth information about risk factors can be found by using this QR code or by visiting [http://www.scouting.org/HealthandSafety/risk\\_factors.aspx](http://www.scouting.org/HealthandSafety/risk_factors.aspx)

## Questions?

**Q. Why does the BSA require all participants to have an Annual Health and Medical Record?**

A. The AHMR serves many purposes. Completing a health history promotes health awareness, collects necessary data, and provides medical professionals critical information needed to treat a patient in the event of an illness or injury. It also provides emergency contact information.

Poor health and/or lack of awareness of risk factors have led to disabling injuries, illnesses, and even fatalities. Because we care about our participants' health and safety, the Boy Scouts of America has produced and required the use of standardized health and medical information since at least the 1930s.

The medical record is used to prepare for high-adventure activities and increased physical activity. In some cases, it is used to review participants' readiness for gatherings like the national Scout jamboree and other specialized activities.

Because many states regulate the camping industry, this Annual Health and Medical Record also serves as a tool that enables councils to operate day and resident camps and adhere to state and BSA requirements. The Boy Scouts of America Annual Health and Medical Record provides a standardized mechanism that can be used by members in all 50 states.

For answers to more questions, use this QR code or visit the FAQ page at [www.scouting.org/HealthandSafety/Resources/MedicalFormFAQs.aspx](http://www.scouting.org/HealthandSafety/Resources/MedicalFormFAQs.aspx).

## Part A: Informed Consent, Release Agreement, and Authorization

Full name: \_\_\_\_\_  
DOB: \_\_\_\_\_

**High-adventure base participants:**  
Expedition/crew No.: \_\_\_\_\_  
or staff position: \_\_\_\_\_

### Informed Consent, Release Agreement, and Authorization

I understand that participation in Scouting activities involves the risk of personal injury, including death, due to the physical, mental, and emotional challenges in the activities offered. Information about those activities may be obtained from the venue, activity coordinators, or your local council. I also understand that participation in these activities is entirely voluntary and requires participants to follow instructions and abide by all applicable rules and the standards of conduct.

In case of an emergency involving me or my child, I understand that efforts will be made to contact the individual listed as the emergency contact person by the medical provider and/or adult leader. In the event that this person cannot be reached, permission is hereby given to the medical provider selected by the adult leader in charge to secure proper treatment, including hospitalization, anesthesia, surgery, or injections of medication for me or my child. Medical providers are authorized to disclose protected health information to the adult in charge, camp medical staff, camp management, and/or any physician or health-care provider involved in providing medical care to the participant. Protected Health Information/Confidential Health Information (PHI/CHI) under the Standards for Privacy of Individually Identifiable Health Information, 45 C.F.R. §§160.103, 164.501, etc. seq., as amended from time to time, includes examination findings, test results, and treatment provided for purposes of medical evaluation of the participant, follow-up and communication with the participant's parents or guardian, and/or determination of the participant's ability to continue in the program activities.

(If applicable) I have carefully considered the risk involved and hereby give my informed consent for my child to participate in all activities offered in the program. I further authorize the sharing of the information on this form with any BSA volunteers or professionals who need to know of medical conditions that may require special consideration in conducting Scouting activities.

With appreciation of the dangers and risks associated with programs and activities, on my own behalf and/or on behalf of my child, I hereby fully and completely release and waive any and all claims for personal injury, death, or loss that may arise against the Boy Scouts of America, the local council, the activity coordinators, and all employees, volunteers, related parties, or other organizations associated with any program or activity.

I also hereby assign and grant to the local council and the Boy Scouts of America, as well as their authorized representatives, the right and permission to use and publish the photographs/film/videotapes/electronic representations and/or sound recordings made of me or my child at all Scouting activities, and I hereby release the Boy Scouts of America, the local council, the activity coordinators, and all employees, volunteers, related parties, or other organizations associated with the activity from any and all liability from such use and publication. I further authorize the reproduction, sale, copyright, exhibit, broadcast, electronic storage, and/or distribution of said photographs/film/videotapes/electronic representations and/or sound recordings without limitation at the discretion of the BSA, and I specifically waive any right to any compensation I may have for any of the foregoing.

**NOTE: Due to the nature of programs and activities, the Boy Scouts of America and local councils cannot continually monitor compliance of program participants or any limitations imposed upon them by parents or medical providers. However, so that leaders can be as familiar as possible with any limitations, list any restrictions imposed on a child participant in connection with programs or activities below.**

List participant restrictions, if any:  None

\_\_\_\_\_

I understand that, if any information I/we have provided is found to be inaccurate, it may limit and/or eliminate the opportunity for participation in any event or activity. If I am participating at Philmont, Philmont Training Center, Northern Tier, Florida Sea Base, or the Summit Bechtel Reserve, I have also read and understand the supplemental risk advisories, including height and weight requirements and restrictions, and understand that the participant will not be allowed to participate in applicable high-adventure programs if those requirements are not met. The participant has permission to engage in all high-adventure activities described, except as specifically noted by me or the health-care provider. If the participant is under the age of 18, a parent or guardian's signature is required.

Participant's signature: \_\_\_\_\_ Date: \_\_\_\_\_

Parent/guardian signature for youth: \_\_\_\_\_ Date: \_\_\_\_\_

(If participant is under the age of 18)

Second parent/guardian signature for youth: \_\_\_\_\_ Date: \_\_\_\_\_

(If required; for example, California)

### Complete this section for youth participants only:

#### Adults Authorized to Take to and From Events:

You must designate at least one adult. Please include a telephone number.

### Health History

Do you currently have or have you ever been treated for any of the following?

Yes	No	Condition	Explain
		Diabetes	<b>Last HbA1c percentage and date:</b>
		Hypertension (high blood pressure)	
		Adult or congenital heart disease/heart attack/chest pain (angina)/heart murmur/coronary artery disease. Any heart surgery or procedure. Explain all "yes" answers.	
		Family history of heart disease or any sudden heart-related death of a family member before age 50.	
		Stroke/TIA	
		Asthma	<b>Last attack date:</b>
		Lung/respiratory disease	
		COPD	
		Ear/eyes/nose/sinus problems	
		Muscular/skeletal condition/muscle or bone issues	
		Head injury/concussion	
		Altitude sickness	
		Psychiatric/psychological or emotional difficulties	
		Behavioral/neurological disorders	
		Blood disorders/sickle cell disease	
		Fainting spells and dizziness	
		Kidney disease	
		Seizures	<b>Last seizure date:</b>
		Abdominal/stomach/digestive problems	
		Thyroid disease	
		Excessive fatigue	
		Obstructive sleep apnea/sleep disorders	<b>CPAP: Yes <input type="checkbox"/> No <input type="checkbox"/></b>
		List all surgeries and hospitalizations	<b>Last surgery date:</b>
		List any other medical conditions not covered above	

## Part B: General Information/Health History

Full name: \_\_\_\_\_  
 DOB: \_\_\_\_\_

**High-adventure base participants:**  
 Expedition/crew No.: \_\_\_\_\_  
 or staff position: \_\_\_\_\_

### Allergies/Medications

Are you allergic to or do you have any adverse reaction to any of the following?

Yes	No	Allergies or Reactions	Explain	Yes	No	Allergies or Reactions	Explain
		Medication				Plants	
		Food				Insect bites/stings	

List all medications currently used, including any over-the-counter medications.

CHECK HERE IF NO MEDICATIONS ARE ROUTINELY TAKEN.  IF ADDITIONAL SPACE IS NEEDED, PLEASE INDICATE ON A SEPARATE SHEET AND ATTACH.

Medication	Dose	Frequency	Reason

YES  NO Non-prescription medication administration is authorized with these exceptions: \_\_\_\_\_

Administration of the above medications is approved for youth by:

\_\_\_\_\_/\_\_\_\_\_  
 Parent/guardian signature MD/DO, NP, or PA signature (if your state requires signature)

!

**Bring enough medications in sufficient quantities and in the original containers. Make sure that they are NOT expired, including inhalers and EpiPens. You SHOULD NOT STOP taking any maintenance medication unless instructed to do so by your doctor.**

!

### Immunization

The following immunizations are recommended by the BSA. Tetanus immunization is required and must have been received within the last 10 years. If you had the disease, check the disease column and list the date. If immunized, check yes and provide the year received.

Yes	No	Had Disease	Immunization	Date(s)	Please list any additional information about your medical history:
			Tetanus		
			Pertussis		
			Diphtheria		
			Measles/mumps/rubella		
			Polio		
			Chicken Pox		
			Hepatitis A		
			Hepatitis B		
			Meningitis		
			Influenza		
			Other (i.e., HIB)		
			Exemption to immunizations (form required)		

**DO NOT WRITE IN THIS BOX**  
 Review for camp or special activity.

Date: \_\_\_\_\_

# High-Adventure Risk Advisory to Health-Care Providers and Parents

## Philmont Scout Ranch

Phone: 575-376-2281

Website: [www.philmontscoutranch.org](http://www.philmontscoutranch.org)

**Philmont Scout Ranch Experience.** The Philmont experience is not risk-free. Staff will instruct participants in safety measures. Be prepared to listen to and follow these measures. Accept responsibility for the health and safety of yourself and others. Each participant must be able to carry 25 to 35 percent of their body weight while hiking 5 to 12 miles per day in an isolated mountain wilderness ranging from 6,500 to 12,500 feet in elevation over trails that are steep and rocky. Summer/autumn climate includes temperatures from 30 to 100 degrees, low humidity (10 to 30 percent), and frequent, sometimes severe, thunderstorms. Winter climatic conditions can range from -20 to 60 degrees. During a Winter Adventure experience, each person will walk, ski, or snowshoe along snow-covered trails pulling loaded toboggans or sleds for up to 3 miles—or even more on a cross-country ski trek.

**Risk Advisory.** Philmont has an excellent health and safety record and strives to minimize risks to participants by emphasizing appropriate safety precautions. Because most participants are prepared, are conscious of risks, and take safety precautions, they do not experience injuries. If you decide to attend Philmont, you should be physically fit, have proper clothing and equipment, be willing to follow instructions, work as a team with your crew, and take responsibility for your own health and safety.

Philmont staff members are trained in first aid, CPR, and accident prevention. They can assist the adult advisor in recognizing, reacting to, and responding to accidents, injuries, and illnesses. Each crew is required to have at least two members trained in wilderness first aid and CPR. Response times can be affected by location, terrain, weather, or other emergencies and could be delayed for hours or even days in a wilderness setting.

All Philmont participants should understand potential health risks inherent at or above 6,700 feet in elevation in a dry Southwest environment. High elevation; a physically demanding high-adventure program in remote mountainous areas; camping while being exposed to occasional severe weather conditions such as lightning, hail, flash floods, and heat; and other potential problems, including injuries from tripping and falling, falls from horses, heat exhaustion, and motor vehicle accidents, can worsen underlying medical conditions. Native wild animals such as bears, rattlesnakes, and mountain lions usually present little danger if proper precautions are taken.

Guests attending Philmont Training Center conferences and family programs who are unfamiliar with the backcountry should review the supplemental information available on the Philmont website, especially information about activities that may be new to them.

Please call Philmont at 575-376-2281 if you have any questions. All participants and guests should review all materials and websites related to the experiences they are planning to have at Philmont Scout Ranch.

**Food.** If the diet described in the participant guide does not meet the participant's special dietary needs, contact Philmont directly. Visit the Philmont Scout Ranch website for sample menus and more information.

**Medication.** Each participant who needs medication must bring enough medicine for the duration of the trip. Consider bringing two or three supplies of vital medication. People with allergies that have resulted in severe reactions or anaphylaxis must bring an EpiPen that has not expired.

**Immunizations.** Each participant must have received a tetanus immunization within the last 10 years. Recognition will be given to the rights of those Scouts and Scouters who do not have immunizations because of philosophical, political, or religious beliefs. In such a situation, the Immunization Exemption Request form is required; it is located on the Philmont website.

**High Blood Pressure.** Upon arrival at Philmont, all adult participants will have their blood pressure checked. Participants should have a blood pressure less than 140/90. People with hypertension (greater than 140/90) should be treated and controlled before attending Philmont, and should continue on medications while participating. The goal of treatment should be to lower the blood pressure to normal levels. Those individuals with a blood pressure consistently greater than 160/100 at Philmont may be kept off the trail until their blood pressure decreases.

**Seizures (Epilepsy).** The seizure disorder must be well-controlled by medication. A well-controlled disorder is one in which a year has passed without a seizure. Exceptions to this guideline may be considered on an individual basis, and will be based on the specific type of seizure and likely risks to the individual/other members of the crew.

**Diabetes Mellitus.** Both the person with diabetes and one other person in the group need to be able to recognize signs of excessively high or low blood sugar. An insulin-dependent person who was diagnosed or who has had a change in delivery system (e.g., insulin pump) in the last six months is advised not to participate. A person with diabetes who has had frequent hospitalizations or who has had problems with low blood sugar should not participate until better control of the diabetes has been achieved. If an individual has been hospitalized for diabetes-related illnesses within the past year, the individual must obtain permission to participate by contacting the **Philmont Health Lodge at 575-376-2281**.

**Asthma.** Asthma must be well-controlled before participating at Philmont. This means: **1)** the use of a rescue inhaler (e.g., albuterol) less than once daily; **2)** no need for a rescue inhaler at night. Well-controlled asthma may include the use of long-acting bronchodilators, inhaled steroids, or oral medications such as Singulair. You may not be allowed to participate if: **1)** you have asthma not controlled by medication; or **2)** you have been hospitalized/gone to the emergency room to treat asthma in the past six months; or **3)** you have needed treatment by oral steroids (prednisone) in the past six months. You must bring an ample supply of your medication and a spare rescue inhaler that are not expired. At least one other member of the crew should know how to use the rescue inhaler. Any person who has needed treatment for asthma in the past three years must carry a rescue inhaler on the trek. If you do not bring a rescue inhaler, you must buy one before you will be allowed to participate.

# High-Adventure Risk Advisory to Health-Care Providers and Parents

Philmont Scout Ranch

Phone: 575-376-2281

Website: [www.philmontscoutranch.org](http://www.philmontscoutranch.org)

## Recommendations for Chronic Illnesses.

Adults or youth with any of the following conditions should undergo an evaluation by a physician before considering participation at Philmont.

1. Chest pain, myocardial infarction (heart attack) or family history of heart disease in any person before age 50
2. Heart surgery, including angioplasty (balloon dilation), to treat blocked blood vessels or place stents
3. Stroke or transient ischemic attacks (TIAs)
4. High blood pressure
5. Claudication (leg pain with exercise, caused by hardening of the arteries)
6. Diabetes
7. Smoking or excessive weight

The physical exertion at Philmont may precipitate either a heart attack or stroke in susceptible people. Participants with a history of any of the seven conditions listed above should have a physician-supervised stress test. Even if the stress test results are normal, the results of testing are done at lower elevations, without backpacks, and do not guarantee safety. If the test results are abnormal, the individual is advised not to participate.

**Allergy or Anaphylaxis.** People who have had an anaphylactic reaction from any cause must contact Philmont before arrival. If you are allowed to participate, you will be required to have appropriate treatment with you. You and at least one other member of your crew must know how to give the treatment. If you do not bring appropriate treatment with you, you will be required to buy it before you will be allowed to participate.

**Recent Musculoskeletal Injuries and Orthopedic Surgery.** Participants will put a great deal of strain on their joints. Individuals who have significant musculoskeletal problems (including back problems) or orthopedic surgery/injuries within the last six months must have a letter of clearance from their treating physician to be considered for approval, and Philmont should be contacted in advance of participation. Permission is not guaranteed. Ingrown toenails are a common problem and must be treated 30 days prior to arrival.

## Psychological and Emotional Difficulties.

Parents and advisors should be aware that no high-adventure experience is designed to assist participants in overcoming psychological or emotional problems. Experience demonstrates that these problems frequently become worse, when a participant is under the stress of the physical and mental challenges of a remote wilderness setting. Medication must never be stopped prior to participation and should be continued throughout the entire Philmont experience.

**Weight Limits.** Weight limit guidelines (see Part C) are used because overweight individuals are at a greater risk for heart disease, high blood pressure, stroke, altitude illness, sleep problems, and injury. These guidelines are for all Scouting high-adventure activities. Each participant's weight must be less than the maximum acceptable limit in the weight chart. Participants 21 years and older who exceed the maximum acceptable weight limit for their height at the Philmont medical recheck WILL NOT be permitted to backpack or hike at Philmont. They will be sent home. For participants under 21 years of age who exceed the maximum acceptable weight for height, the Philmont staff will use their judgment to determine if the youth can participate. Philmont will consider up to 20 pounds over the maximum acceptable; however, exceptions are not made automatically and discussion with Philmont in advance is required for any exception. **Philmont's telephone number is 575-376-2281.** Due to rescue equipment restrictions and evacuation efforts from remote sites, under no circumstances will any individual weighing more than 295 pounds be permitted to participate in backcountry programs.

**Philmont Approval.** Staff and/or staff physicians reserve the right to deny the participation of any individual on the basis of a physical examination and/or medical history. Each participant is subject to a medical recheck at Philmont.
