WHAT IS VENTURING?

Venturing provides young people with positive experiences to help them mature and develop into responsible and caring adults. Venturing is based on a unique and dynamic relationship between youth, adult leaders and mentors, and community organizations. Local organizations establish Venturing crews by matching their people and program resources to the interests of young adults in the community. The result is a program of exciting and meaningful activities that helps youth pursue their special interests, grow, develop leadership skills, and become active citizens. Venturing crews can focus on a variety of career or hobby-related interests.
